Downtown Streetlight Improvements Construction to Continue on North Side of Courthouse Square

For Immediate Release

January 28, 2002

Contact: Scott Byler (979) 968-8701

City of La Grange work crews, for the downtown historic streetlight improvements wish to announce that construction will continue on the historic period streetlights on the North Side of the Courthouse Square starting Thursday, January 31st and possibly running through Friday, February 1, 2002 in downtown La Grange.

Demolition and construction will begin around 8:30 a.m. on January 31st at the center of the block along Colorado Street proceeding east to the intersection of Washington and Colorado Street. The center parking for the Courthouse in front of the businesses from the Gindler's Building to eventually State Bank will be temporarily blocked off. The east bound inside traffic lane around the Courthouse in from the intersection of Main and Colorado to the intersection of Washington and Colorado will be blocked and traffic flow limited. Also, the north side parking for the Courthouse from the intersection of Main and Colorado to the intersection of Washington and Colorado Streets will be blocked off for one day on January 31st. Traffic flow and parking will be limited during the demolition and construction of underground electric utilities which will be installed to service the new streetlights. These areas, along Colorado Street will most likely stay blocked off from 8:30 a.m. to 5:00 p.m. during working hours on the above dates.

The City of La Grange along with the work crews for the project understands the inconveniences associated with blocking off the parking and limiting the traffic flow and will work to be accommodating. The City of La Grange would ask for all citizens' cooperation and understanding so that work can proceed speedily and efficiently to resolve the situation as quickly as possible. Thank You!
